Dear Mr. Rutledge,

I just wanted to personally thank you for your professionalism and integrity that you've shown me every step of the way, during my current loan modification process. I am truly privileged and will forever be grateful to have been provided your unprecedented services that I feel can never be out-performed or matched by any other firm in existence today in America or in the world for that matter. I have been deeply touched as though I have had family fighting for me instead of the mega national giant that your firm is. I took a leap of faith to give my bank account information over the phone and retain United Law Group, but it wasn't too difficult after seeing your awesome website which has a tremendous amount of valuable information to eliminate all reluctance and uncertainty about the legitimacy of your firm and after having a very intelligent conversation with a member of your legal team who articulated very well the critical aspects of what was going to happen, the trust was established. Never once has your firm given any reason to doubt that I was in the best hands in existence today to handle my case and that the results will be nothing less the best possible outcome. Thank you so much for all the time and effort every member of the team has demonstrated with the utmost care and respect for this homeowner who was in desperate need of help to rise above financial distress. I am so happy that I placed my trust in your firm it has all transpired like a dream beyond what I ever could have imagined. I will recommend your firm with a strong passion and conviction knowing that a lot of my dear acquaintances are facing similar situations.

Sincerely,

James R. Dickson
